

There was a committee meeting on Monday 13th September at which it was agreed that the following emails should be sent to Boatfolk, with the precise wording later agreed by email between committee members.

Sent Tuesday 14th September

Good afternoon Jon,

At a CMBHA committee meeting last night it was agreed that we should thank you and your team for the very successful social event last Saturday.

It was a great opportunity for new and 'veteran' berth holders to meet, socialize and build the community feeling.

Please pass on our thanks to your wonderful team.

Best regards,

Roger

On behalf of the CMBHA committee

Thursday 16th September

Good morning Jon,

I have been asked to write to Boatfolk by the CMBHA committee on behalf of our members.

We would be grateful if you could seek a response from Boatfolk senior management.

The recent Boatfolk newsletter mentioned an offer that early payment of berthing fees for the 2022-23 season by the end of September would be done at this year's rates, implying that there will be an increase in berthing fees.

Last year saw a 5.7% increase in fees despite covid-related factors. We recognise that inflation and much-needed investment in the marina could have contributed toward this.

We therefore wonder what improvements are planned for Conwy marina for next year and what is the planned percentage increase in berthing fees for 2022-23.

This email and the response of Boatfolk management will be made available to CMBHA members so they can make an informed decision.

We look forward to hearing from you.

Regards,

Roger
