

CMBHA Newsletter October 2022

Safe disposal of out-of-date flares

Regulations are changing at the end of 2022.

“Ultimately, the responsibility for the safe disposal of out-of-date flares rests with their owner. The RYA is therefore encouraging anyone with time expired flares to dispose of them responsibly prior to the end of 2022. You can find further information on how to safely disposal of out of date flares on the RYA Safety hub.”

This is a link to the environmental map for flares disposal which is quite sparse at present but is expected to be more comprehensive as the end of 2022 approaches.
